

OUR MISSION

GROWING UP
TOGETHER WITH
HAPPINESS

KINDER IN WIEN

OUR SELF-IMAGE

KIWI operates age-extended and classic kindergartens, as well as Hortis (after-school day-care) and takes care of children aged one to ten years.

We are an innovative organisation that believes in continuous development. We use our creativity and ideas to set new standards and enter new frontiers in education.

We guide children through their individual development and have a holistic approach to learning.

DEMAND-ORIENTED

Our wide range of educational services reflects our pluralism of values and answers to the various demands of families and society.

OUR GUIDING BELIEFS

- We are committed to the children's rights defined by the UN Convention on the Rights of the Child.
- Our motto, "In Freude miteinander wachsen" (growing up together with happiness), expresses our readiness for life-long learning and development.
- Our pluralistic values are representative of our openness towards different cultures and ways of living.
- We believe that humans are self-determined and owe responsibility to others and the environment.
- We define quality through verifiable standards and work constantly to ensure their implementation and evolution.

KIWI FOR CHILDREN

KIWI guides children on their path to independence, enabling them to build relationships with others and to develop a sense of responsibility towards society and their environment.

WE WANT TO!

- take children seriously in a mutual process of growth
- cater to children's individuality and further their competencies
- create learning environments in which they can live their childhood, experience happiness and contentment and learn a constructive approach to solving conflicts
- facilitate the development of the children's independence and participation in the educational process

KIWI FOR PARENTS

- We place great importance on a good cooperation between parents and our educational institutions, ensuring a constructive educational partnership. The child's needs lie at the centre of this relationship.
- We make our work transparent for parents.
- In KIWI kindergartens and Horts (after-school day-care) there are numerous possibilities for interaction between parents and educators.
- Our kindergartens and Horts provide counselling and coaching for parents, offering them support in their parental role.

OUR TOGETHERNESS

Our culture of teamwork builds the foundation of our togetherness. We work towards common goals, whereby each individual contributes his/her own commitment, motivation and skills. We respect our employees' individuality. Our togetherness allows us to create synergies, expanding our potential as a team.

NETWORKING

We facilitate interconnectedness within the kindergarten/Hort through our open kindergarten system, collective planning, teamwork and regular exchange of ideas and information.

We support networking within the organisation KIWI through reflection, continued education and regional meetings.

We place great importance on external networking with other institutions and organisations. This enables us to raise awareness for the value of childhood and the importance of our work in the kindergartens and Horts.

KINDER IN WIEN
views itself as an innovative
organisation that believes in innovation
and continuous self-improvement,
setting new standards and entering new
frontiers in education.

Following our motto,
“in Freude miteinander wachsen” -
growing up together with happiness –
we guide and support children
aged one to ten and define quality
through measurable standards
